To the Board of ZNPK (Poland)
to the Board of Directors Netzwerk Privatbahnen

Association of Private Rail Freight Operators in Poland (ZNPK)

1542009

Dear Mrs. Lejman,
dear Members of the Board of ZNPK

Netzwerk Privatbahnen is the association of 24 private rail freight operators working for fair competition on the national and european railway network. In the name of Hartmut Gasser, President of NP and CEO of Mosolf Automotive Railway, and in the name of our Board of Directors I want to give you a warm "welcome to the club". It is a great progress that you have formed an association in Poland and Netzwerk Privatbahnen will support you wherever we can.

Netzwerk Privatbahnen has its office in Berlin and is managed by me as full time Secretary General (and lawyer). It may happen that one of you is in Berlin. Don't hesitate to contact me in order to arrange a first meeting for the exchange of ideas and experiences. We regularly issue an info letter which is also translated in English. So you can read what we are doing and which obstacles are existing in a market dominated by an integrated railway group, expanding unscrupulously and protected and financed by the Government.

We recommend that you join ERFA (European Rail Freight Association, Brussels) because it is necessary that all efforts on national level are combined and coordinated by ERFA.

With best regards

Arthur-Iren Martini
Secretary General
